ONE OBJECT – MANY VISIONS – EUROVISIONS

The Young Scenographers Contest is an international, interdisciplinary design competition and part of the research project **EMEE – EUROVISION: MUSEUMS EXHIBITING EUROPE.**

EMEE is a European museum development project for national and regional museums. The project explores an innovative approach for museums to reinterpret their objects in the broader context of European history. New means of presentation, participation and staging aim at enabling visitors to gain access to transnational objects and European perspectives.

The theme for the **EMEE – YOUNG SCENOGRAPHERS CONTEST** is »One Object – Many Visions – EuroVisions«. Young designers are invited to create ideas and develop design concepts for a multi-perspective, synaesthetic presentation of museum objects. The goal is to find new transcultural approaches to present regional (local) objects in a European (global) dimension via contemporary, content consistent exhibition design and new formats of presentation. We cordially invite you to take part in this contest!

SCENOGRAPHERS SYMPOSIUM

The international Scenographers Symposium will be held as a prelude to the Young Scenographers Contest and will serve as a discussion platform and source for inspiration. The partners of the EMEE project will introduce the topic and the aim of the contest and internationally renowned speakers from different creative disciplines will be invited to contribute and to exchange ideas of contemporary, holistic exhibition design and scenography.
